V-CARD

From abstract legal requirements to clear recommendations for action

With her analytical focus, pragmatism and drive for clarity, Anna v. Dietze sheds light on the ever-growing regulatory jungle. She helps companies to assess legal risks and develop practical solutions.

Dear Anna, what does our promise “To make it simple, but significant” mean to you?

“I see my added value in translating abstract legal requirements into concrete, implementable measures while keeping an eye on risks and economic priorities. My experience as an in-house lawyer, my strength in execution and my constant efforts to bring clarity to complex issues help me in particular.”

Versatile experience in law firms and companies

Her wide-ranging expertise and practical focus make Anna v. Dietze a valuable advisor for German and international companies. Anna v. Dietze monitors legal developments and is therefore in a position to provide clients with reliable advice in a time characterized by geopolitical turbulence and legal uncertainty.

In-house counsel activity

Having worked as an in-house lawyer for an MDax company, I know first-hand how difficult it is to implement legal requirements in commercial reality.

International experience

Thanks to being admitted as a lawyer in Germany, Australia and England & Wales and many years of legal consulting, I understand different legal systems and the legal challenges of globally operating companies.

Association activities

Through my involvement in association activities at the interface of politics, business and society, I advocate for proportionate regulation to foster innovation and competition.

Publications

All publications

KI trifft Datenschutz – ein unlösbarer Konflikt oder Chance auf Versöhnung? Wird im Mai/Juni 2025 in der DuD, Heft 5 veröffentlicht.

Commentary Note to the Consultation on the EDPB Draft Guidelines on Pseudonymisation, Februar 2025. Praxisleitfaden zu den Verpflichtungen der Datenweitergabe unter der EU Datenverordnung. 1. Auflage, Februar 2025. Gemeinschaftlich erstellte Publikation nur für Mitgliedsfirmen des VDMA.

WHAT WAS A MILESTONE IN MY CAREER?

“I support clients in their digital transformation projects by developing legal solutions for them that are not only legally compliant, but also fit their core business, their organization and their risk profile.”

Data, digital and IT law

Anna v. Dietze advises clients in the traditional areas of data protection, IT law and contract law, as well as on innovative legal issues relating to data usage, digital transformation and artificial intelligence.

IT contracts

Drafting and negotiating IT contracts with a focus on clarity and risk allocation.

Data usage

Use of legal instruments for the commercialization of data in the context of data-driven business models and artificial intelligence.

Artificial intelligence

Support in the implementation of AI solutions in line with regulation.

Data protection

Advice on operational data protection issues and data protection management systems.

Industry 4.0

Legal support for digital transformations in industrial companies.

Responsible Tech

Advice on the development and use of new technologies in accordance with the principles of technological responsibility.
