V-CARD

“For me, project management is not just a word. It’s a promise.”

“Whether it’s a plant construction project, corporate transaction or company and asset succession. With me, you have an experienced and conscientious advisor at your side. When drafting contracts and deeds, I attach great importance to your comprehensive legal protection. So that your position is secure – even decades after project completion, if necessary. “

Dear Friedrich, what does our promise “To make it simple, but significant” mean to you?

“Good advice never works on a selective basis. Neither does it help to look at only part of a project nor to concentrate exclusively on one (sub-)area of law. I can only add economic value for my clients if I assess the entire complexity of a project and gradually transform it into solutions. Without haste, with a clear view of the goal and a firm ethical compass”

Valued in corporate law and plant engineering

“I am delighted that both clients and market players regularly recommend me in these two very different areas.”

WHAT WAS A MILESTONE IN MY CAREER?

“A personal highlight? The helicopter flight over the power plant for which I was responsible for the plant construction contracts – a moment that impressively shows how close legal work can be to the pulse of major industrial projects.”

A clear view of the big picture for project success

With decades of experience, I develop solutions with substance: contracts that work – even and especially when things get complicated. This is not always possible in the short term. But perseverance and diligence will ultimately lead to your goal.

Plant construction & major projects

Legally compliant coordination of complex large-scale technical projects.

Corporate transactions

Careful structuring and contractual protection of company acquisitions and sales.

Succession & assets

Sophisticated design for cross-generational solutions with a view to all eventualities.

Commercial and corporate law

Contracts that also help in exceptional situations, even in legal disputes if necessary
