For visions that move

Pascal Zimdahl advises you in the key areas of commercial and corporate law as well as general civil and contract law.

His goal: Mastering challenges. Seize opportunities. Shaping the future.

His claim: Pragmatic. Reliable. Authentic.

His approach: Security through structure. Connectedness through values. Growth through quality.

Dear Pascal, what does our promise “To make it simple, but significant” mean to you?

“In our dynamic business world, it is important to break down complex issues and legal contexts into understandable levels. But without losing sight of the details and the client’s interests. Because there are often several possible solutions. The quality standard, however, remains the same. What would the world look like after your ideas and rights have been realized? Let’s find out. Or as we say in the Ruhr region: “Roll up your sleeves and get to work!”

Legal advice is more than just formal paragraphing.

We exploit potential thanks to purposeful thinking. In the required depth. Or breadth. Sometimes a change of perspective also helps. We don't always just move forward, but we never stand still. For the cause. And the people behind it.

The idea

It all starts with the idea. The law paves the way for implementation. It can be used to set boundaries, but also to overcome them.

Problems and conflicts

Dealing with problems and conflicts in the right way creates new opportunities. Because standing side by side is a better prospect than standing opposite each other.

The impact

We live in a fascinating world. We work together to make it a little better every day.

WHAT WAS A MILESTONE IN MY CAREER?

“... hope for the best, expect the worst and live in the situation...”

The basis for all action and the tool for achievements

Corporate law / M&A

Corporate law advice in all phases of the corporate life cycle, including (cross-border) corporate transactions.

Commercial / contract law

Forward-looking contract drafting and advice, taking into account the specific features of the industry, for the practical solution of problems before they arise.

Conflict resolution

Strategic (arbitration) court and out-of-court negotiations and enforcement of client interests in contentious disputes
